Application letter as Board member of the
Belgium Board of Directors

To the Board of MSF
MSF Belgium

Dear leaders,

I have the honour to transmit to you my candidacy for the position of member of the Board of Directors of MSF Belgium.

As a frontline health professional during MSF's medical emergencies in Burundi from 2017-2021, we wish to be part of the Board of Directors team to evolve MSF Belgium's strategic interventions on the basis of the organisation's terms of reference.

Specifically, the safeguarding and popularisation of MSF's principles and values, and the analysis and integration of project operating indicators will be the subject of particular attention in the ongoing monitoring.

To participate in the work of the Board of Directors already in existence, bringing new ideas to advance in negative or positive criticism in the interest of advancing the services of our movement.

To acknowledge the positive points made in the projects, to raise the (negative) weak points of the stakeholders and to transform them into opportunities.

We thought that through this kind of admissibility exercise, our desired participation as a member of the Board of Directors of MSF Belgium will bring added value.

Considering that my request will meet your authority, I wish you a good reception and I hope to receive a favourable response.

Yours sincerely

MAKOFI NDEKO Emmanuel
